Certificate of Suitability for Syndication Purposes

Re: Zabeel - Western Flame 2006 Bay Thoroughbred Filly
Brands: Left: Lazy B Over J Right: 7 over 6
Lot 449, New Zealand Bloodstock National Yearling Sales Series Karaka 2008

At the request of Scott Darby of Darby Racing Limited, P O Box 611, Narellan, N S W 2567, Australia I examined the above described horse at the New Zealand Bloodstock National Yearling Sales Series in January 2008.

The examination was limited to an inspection of the horse, her identification and health, an examination of the gait when led at the walk and examination of the radiographs lodged at the Karaka Repository. The examination was not and should not be interpreted as a pre purchase examination.

At the time of examination the yearling was in good health and condition and free from symptoms of disease and injury. The eyes, ears and mouth appeared to be normal. No significant conformational abnormalities were noted, and there were no signs of lameness when led at the walk.

The radiographs submitted to the repository at Karaka revealed no visible significant radiographic lesions.

Within the limits of the examination, and at the time of examination, the filly is in my opinion, a suitable subject for syndication purposes and racing.

This certificate has been prepared for the inclusion in the disclosure statement of the above-described horse. Potential investors may rely upon this certificate, however it does not constitute a "pre purchase" examination.

I certify that I have no current, nor contemplate future, interest in the above-described horse, other than in the supply of the veterinary opinion for racing suitability.

Yours sincerely

D P Keenan
