Certificate of Suitability for Syndication.

At the request of Mr Scott Darby of Darby Racing, I examined the 2006 bay filly by Beautiful Crown from Bright Heroine (branded nsh: RB over V osh: 21 over 6) at the Inglis Classic Sale on 27/4/08.

At the time of examination she was in good condition and health and showed no symptoms of disease or injury. There were no signs of lameness when examined at the walk at the sales complex.

Conformation of the limbs was good and she had good body shape and balance. There were no signs of swelling or effusion in any of the joints and no thickening or pain on palpation of the tendons and ligaments of the front legs.

Examination of the Radiographs of the filly in the X Ray repository showed no significant lesions, and the filly was examined by endoscope after the sale and the report is attached.

Within the limits and confinements of the examination the filly is, in my opinion, a suitable subject to sell into syndication.

I, John Brian Crowley, Veterinary Surgeon in equine practice hereby declare that I have no financial interest and am not a shareholder in any of Darby Racing syndicated horses.

John B Crowley BVSc(Hons)
