At the request of Mr. Scott Darby of Darby racing, I have examined the above described yearling. The examination was limited to a physical examination (within the confines of the Magic Millions sale yards), examination of the Radiographs submitted for the yearling in the X Ray repository, and an endoscope examination conducted at the time of purchase (Report attached).

The yearling was well balanced and had leg conformation within acceptable limits. There was no pain on flexion or increased joint fluid in any of the joints of the lower legs and there was no sign of lameness visible within the confines of the examination area. The temperament and demeanour was within normal ranges.

Within the limits of and at the time of examination I could detect no abnormalities that would preclude the use of this horse as a racehorse and in my opinion the horse is a suitable subject for syndication as a future racehorse.

The radiographs examined at the sales revealed no significant abnormalities that would in my opinion prevent the use of the horse as a racehorse.

I, John B Crowley declare that I have no fiscal interest in this yearling and am acting as the Veterinarian who inspected this horse at the request of Mr Scott Darby.
